

Purpose/Target Audience

This educational activity is designed to provide attendees with a program of clinical and practical information relating to current orthopaedic practice as well as future directions in orthopaedic care. Topics will include legislative and governmental regulatory issues, surgical updates and practice management information. Target audiences for this program are Orthopaedic Surgeons, Orthopaedic Residents, Physician Assistants, Physical Therapists and Orthopaedic Practice Administrators.

Acknowledgment of Financial Support

We gratefully acknowledge financial support of this program from several orthopaedic hardware and pharmaceutical companies, by their participation in exhibiting their product lines. Names of these companies will be provided in material distributed at the time of onsite registration. Determination of educational content for this program and the selection of speakers are responsibilities of the program director. Firms providing financial support did not have input into these considerations.
